W.E.T. LAB FIELD OPERATIONS UNIT

Back-of-House Run of Show

Host reference | timing, cues, scoring flow, and closeout sequence

Event spine	Intake, mini-games, proposal prep, lightning talks, squid phase, awards	**Team size**	Labs of 4–5 players
Critical rules	Opposing signatures required for mini-game wins; reviewers cannot score own lab	**Funding scale**	All values in $100 increments

PRE-OPEN CHECKLIST

- ☐ Identity badges sorted; reviewer dots hidden until proposal phase.
- ☐ Team scoring sheets or notebooks distributed to each lab.
- ☐ Hidden $100 discoveries placed; oceanographer clues ready.
- ☐ Stations stocked and staffed: Plankton, Marine Mammal Relay, Baleen, Dolphin Trainer, Fish Bowl, Snorkel Soccer, Specimen Catalog, Competitive Feeding.
- ☐ Proposal scoring method ready: ballots, pens, and award categories posted.
- ☐ Final tally lead assigned for squid theft resolution and winner check.

HOST REMINDERS

- Teams of 4 receive **+$150**; log it early so it is not forgotten later.
- Data Scientist may call **Model Overfit** before a mini-game; that match pays double to the winner.
- Dolphin Trainer requires the team member with the **Dolphin** role to be the dolphin.
- Oceanographers may search for hidden cash during live play.
- Whale prestige is worth **+$200 per whale** at final scoring.
- Squid theft happens **after** proposal awards and before winner announcement.

SCORING CLOSEOUT

1. Stop station play hard at 9:30 and collect any unresolved match results.
2. Verify mini-game wins include an opposing signature before counting them.
3. Add hidden discoveries, team-size bonus, completion bonus, whale prestige, and proposal awards.
4. Reveal squid phase; each squid steals **$200** from one rival lab.
5. Recalculate totals after all squid transfers are applied.
6. Double-check top two labs before announcing winners.

LIVE TIMELINE

Time	Run-of-show cue
7:00	Doors open. FOH music up, stations visible, badges and notebooks at intake.
8:00	Icebreaker and identity assignment. Push players into labs of 4–5 and call out the +$150 adjustment for any 4-player lab.
8:10	Game explanation. Cover objective, signature rule, all-mini-games +$100 bonus, hidden cash, lightning talks, and squid endgame.
8:15	Mini-games begin. Float between stations, keep matches moving, and remind labs to record awards immediately.
9:00	Five-minute warning for station phase. Encourage any missing stations and check that notebooks are legible.
9:30	Stop games. Freeze scoring and pivot all labs to proposal prep.
9:30–9:45	Proposal build window. Reveal peer reviewers now. Enforce under-2-minute talk limit.
9:45–10:00	Lightning talks and peer review. Reviewers cannot score their own lab. Award: Plausible $400, Delivery $300, Funniest $200.
10:00–10:15	Final scoring plus squid phase. Apply all modifiers, then resolve thefts, then announce winner.
10:15–2:15	Dance party / free social block. Reset stations and archive score sheets.
2:15	Optional late-night game or bonus activity if the room is still active.

FAST FAILURE POINTS

- Missing signatures create scoring disputes; fix those before proposal phase starts.
- If a station bottlenecks, push teams toward open stations instead of letting queues form.
- Keep proposal prep tight. If teams drift past 15 minutes, scoring runs late fast.
- Announce squid timing clearly so nobody applies theft before totals are built.

AWARD SNAPSHOT

Funding source	Value
Plankton Survival	$200
Marine Mammal Relay	$300
Baleen Simulator	$200
Dolphin Trainer	$300
Fish Bowl	$300
Snorkel Soccer	$200
Specimen Catalog	$250
Competitive Feeding	$200
All mini-games completed	+$100
4-player lab adjustment	+$150
Whale prestige	+$200 each
Hidden discoveries	+$100 each
Squid theft	±$200 each squid
